

Community Governance Review 2018 -2019
Draft Recommendations Report

Aldingham

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward
Aldingham: North	Parish Council (warded)	3	410	137	410	137	Furness Peninsula
Aldingham: South	Parish Council (warded)	5	542	109	540	108	Furness Peninsula

Comments

No comments were received regarding this parish during stage one of the review.

Draft recommendations

No changes.

Arnside

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward
Unwarded	Parish Council	11	1,965	179	1,853	169	Arnside & Milnthorpe

Comments

Submission received from Arnside Parish Council:

'At its meeting last night (the 8th October 2018) Arnside Parish Council Resolved that it would like to ask that the number of Councillors to represent Arnside Parish Council be reduced to 6 as part of the local Governance review. The reason being that there are permanently vacant seats on the Council and the current level of 11 Councillors is unattainable'

Draft recommendations

After taking into account the comments made regarding Arnside Parish Council, and noting a pattern of a high number of vacancies and uncontested elections, we are recommending a reduction in the number of councillors to EIGHT. We recommend this to ensure effective and convenient community governance.

Barbon

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward
Unwarded	Parish Council	5	197	40	179	36	Sedbergh & Kirkby Lonsdale

Comments

Burneside

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward
Burneside: Strickland Ketel	Parish Council (grouped)	7	891	128	983	141	Kendal Rural
Burneside: Strickland Roger	Parish Council (grouped)	4	383	96	487	122	Kendal Rural

Comments

No comments were received from Burneside Parish Council during stage one of this review.

Submissions affecting Burneside Parish Council have been made by Kendal Town Council, please see recommendation A under the Kendal Town Council section

Draft recommendations

Based on comments made regarding the boundary between Burneside Parish Council and Kendal Town Council we would like to seek views on an area of land north of High Sparrowmire into Kendal Parish. This recommendation is made to ensure community governance is reflective of the identities and interests of the community in that area. This would mean the area of land north of High Sparrowmire would move from Burneside Parish Council into the Strickland ward of Kendal Town Council.

The specific area in question is marked on the following map – Appendix 2(D) –Land North of Kendal Strickland Ward. For this recommendation to take effect we would have to apply to the Local Government Boundary Commission for England (LGBCE) to make a consequential change to both district ward boundary and county electoral division boundary in this area. It will be for the LGBCE to decide, following receipt of the proposals, if a related alteration to these boundaries should be made and when it should be implemented.

Burton-in-Kendal

Claife

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward
Claife: Lower	Parish Council (warded)	3	162	54	162	54	Broughton & Coniston
Claife: Upper	Parish Council (warded)	3	80	27	80	27	Broughton & Coniston

Comments

Claife Parish Council submitted the response below:

'On abolishing wards within the parish: It would prefer to continue with 2 wards as currently, because the current system functions well, each ward has some distinctly different issues, and we don't feel there is a strong need to change it. Despite the difference in electorate numbers it was felt that it is also the Parish Council's responsibility to look after the land and parish interests, and these are broadly equal. On the prospect of grouping with a neighbouring parish: No, we would prefer to remain independent because we believe Claife has unique and distinct issues that require dedicated focus. On the prospect of reducing councillor numbers: No, sometimes councillors are away and keeping our numbers to 6 means we increase the certainty of having a quorum for decisions'

Dent: Dent	Parish Council (warded)	6	449	75	474	79	Sedbergh & Kirkby Lonsdale

Comments

Submission from Dent Parish Council:

'Dent with Cowgill Parish Council would like to request the consideration of the following submission as part of the Community Governance Review.

That the wards of Dent (6 councillors) and Cowgill (3 councillors) be abolished and the Parish Council is no longer warded. The Parish Council would retain 9 councillors all with responsibility for the whole parish. It was resolved to make this submission at the Parish Council meeting on 05 November 2018'.

Draft recommendations

We would like to seek views on abolishing the current wards of Dent and Cowgill and having Dent Parish Council as an un-warded parish. It would retain the current allocation of nine councillors.

We are recommending this change to ensure that community governance is: a) effective and convenient and b) reflects the identities and interests of the community in that area.

We have attached a map which shows the current warding arrangements – Appendix 2(A) - Dent.

Fawcett Forest

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward
Fawcett Forest	Parish Meeting	0	23	0	23	0	Kendal Rural

Comments

No comments were received regarding this parish during stage one of the review.

Draft recommendations

Fawcett Forest parish has a very small electorate and has a recent history of not meeting, leading to the Monitoring Officer at South Lakeland District Council being appointed by auditors to sign off its accounts.

Given this, we are proposing to create a new Parish which amalgamates the parish of Fawcett Forest with the parish of Whitwell and Selside. The new parish would have a forecasted electorate of 183.

We recommend that the new parish is named Selside Parish, and that the parish shall not have a parish council, but a parish meeting – a map is provided in Appendix 2 (B).

We are recommending this change to ensure that community governance is: a) effective and convenient and b) reflects the identities and interests of the community in that area.

Firbank

Grange

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward
Grange: North	Town Council (warded)	4	1,813	454	1,677	420	Grange
Grange: South	Town Council (warded)	4	1,600	400	1,783	446	Grange
Grange: West	Town Council (warded)	1	181	181	150	150	Grange

Comments

No comments were received regarding this parish during stage one of the review.

Draft recommendations

We would like to seek views on altering the warding pattern in the parish of Grange. The small ward of Grange West was created as the properties there were in a different district council ward to the rest of Grange. Following a further electoral review by the LGBCE this is no longer the case. We therefore propose that the ward of Grange West is abolished and Grange Town Council is made up of two wards: Grange North and Grange South. The properties in Grange West will become part of an enlarged Grange South. Grange North will retain four councillors, and Grange South will have five councillors.

Attached is a map of the proposed new wards – as detailed in Appendix 2 (C)

The average elector to councillor ratio for Grange is 401. The forecasted elector to councillor ratio for each new ward is:

- Grange North – 419
- Grange South – 387

We are recommending this change to ensure that community governance is:

- a) effective and convenient, and
- b) reflects the identities and interests of the community in that area.

Comments

Submission received from Hawkshead Parish Council:

'I am writing on behalf of Hawkshead Parish Council who met last week and discussed the review as an Agenda item. They have asked me to feedback that they are happy with the way things are and the area they cover and feel that the systems in place work well'

Draft recommendations

No changes

Helsington

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward
Unwarded	Parish Council	7	269	39	287	41	Bowness & Levens

Comments

Submission received from Helsington Parish Council.

The Parish Council would support a boundary change as large areas of the current Parish have little connection with Helsington and Brigsteer. The changes should accommodate:

- *Ensuring the Parish was wholly within the boundaries of the National Park.*
- *A new parish of minimum of 150 electorate concentrated around Brigsteer Village and Helsington(Whetstone Lane)*
- *Areas to the East of the A591 have more in common with Natland or Kendal and should be reallocated.*
- *Properties on the Moss (e.g. Low Plains Farm) and Barrowfield could be included in this Parish, currently part of Underbarrow. The suggested boundary would be Third Moss Lane.*
- *Low Sizergh being east of the A591 area being reallocated to Sedgwick or Levens Parish.*

The Councillors do not believe that there would be any gain in joining a group of parishes but that a new Parish of 150-200 electors with 7 Parish Councillors centred on the settlement of Brigsteer was the most appropriate model.

Draft recommendations

No changes

We are not recommending changes in Helsington Parish Council based on the comments received. However, we are open to further representations.

We are not minded to make recommendations that creates a much smaller parish council. The comments suggested would create a complex set of proposals to the LGBCE and the benefits are not clear.

Though we are not recommending a change, we are still keen to hear more views and the following could be considered:

- Create a new parish council
- Change the boundaries of the existing parish council and, possibly, rename
- Changing the boundaries and abolishing the parish council, moving to it being a parish meeting
- Warding Helsington Parish Council to ensure those on the fringes have adequate representation

Comments

Submission were received from Kendal Town Council, Natland Parish Council and the Oxenholme Resident's Association.

In summary, Kendal Town Council suggested that the boundary of Kendal Parish should follow the Development Plan boundary in areas where that currently crosses into parishes outside of Kendal Parish, as well as making some other suggestions. Their proposals are:

- Aligning the Kendal Parish boundary with the development plan boundary west and north of High Sparrowmire
- Aligning the Kendal Parish boundary with the development plan boundary north of Laurel Gardens
- Addressing an anomaly where the boundary appears to split neighbouring properties on Gilthwaiterigg Lane
- Including possible development land at Appleby Road into Kendal Parish
- Aligning the Kendal Parish boundary with the development plan boundary south of Natland Mill Beck Lane
- Aligning the Kendal Parish boundary with the development plan boundary at Scroggs Wood
- Moving the Kendal Parish boundary to follow the A591 at Brigsteer
- Including possible development land at Kendal Fell quarry into Kendal Parish
- Aligning the Kendal Parish Boundary with the development plan boundary at Rochester Gardens and Burton Road, Oxenholme

Natland Parish Council made a submission which relates to Kendal Parish. In summary, their proposals are:

- Properties south of Natland Mill Beck Lane should remain in the parish of Natland
- Properties and development land at Rochester Gardens and Burton Road, Oxenholme should move out of Natland Parish into a new civil parish of Oxenholme

Oxenholme Village Residents Group made a submission with a proposal for Oxenholme to be a new parish with its own parish council. The boundaries of this parish would not include any properties west of the railway line which currently lie in the Oxenholme ward of Kendal Town Council.

All the above submissions are available for inspection on request.

Draft recommendations

Several submissions were received which may have an impact on Kendal Town Council. As Kendal Town Council went through boundary changes as part of the further electoral review by the LGBCE, any proposed change would need their approval as a consequential change to electoral arrangements they have already considered. The decision to accept the proposal and when to implement it would be a decision for the LGBCE.

We are seeking views on the following recommendations:

A) Land north of Strickland ward (Hallgarth)

We are proposing altering the parish boundary of Kendal Town Council to include properties on an area of land north of High Sparrowmire. This would form part of the Strickland ward of the parish of Kendal. The attached map shows the proposed new boundary between Kendal Town Council and Burneside Parish Council – Appendix 2 (D).

We are recommending this change to ensure that community governance reflects the identities and interests of the community in that area.

B) Land adjoining Stonecross, Heron Hill and Oxenholme wards

We are proposing altering the parish boundary of Kendal Town Council to include properties on Natland Mill Beck Lane and The Beeches, and to include a small area of land at Watercrock. This would form part of the Stonecross ward of the parish of Kendal. The attached map shows the proposed new boundary between Kendal Town Council and Natland Parish Council – Appendix 2 (E)

We are recommending this change to ensure that community governance reflects the identities and interests of the community in that area.

C) Land at Rochester Gardens adjoining Oxenholme ward

We are proposing altering the parish boundary of Kendal Town Council to include the properties on Rochester Gardens that are currently in Natland Parish. All properties on Rochester Gardens would form part of the Oxenholme ward of the Parish of Kendal. The attached map shows the proposed new boundary between Kendal Town Council and Natland Parish Council – Appendix 2 (F)

We are recommending this change to ensure that community governance reflects the identities and interests of the community in that area.

D) Land adjoining Oxenholme ward

We are proposing altering the parish boundary of Kendal Town Council to include properties on an area of land south of Oxenholme off Burton Road (A65). This would form part of the Oxenholme ward of the parish of Kendal. It will also affect one property, Overdale, which will move from Natland Parish Council into the Oxenholme ward of Kendal Town Council. The attached map shows the proposed new boundary between Kendal Town Council and Natland Parish Council – Appendix 2 (F).

We are recommending this change to ensure that community governance reflects the identities and interests of the community in that area.

E) Land adjoining Stonecross ward

We are proposing altering the parish boundary of Kendal Town Council to include properties on an area of land south of Kendal at Scroggs Wood. The attached map shows the proposed new boundary between Kendal Town Council and Helsington Parish Council – Appendix 2 (G).

We are recommending this change to ensure that community governance reflects the identities and interests of the community in that area.

There have been submissions in stage 1 where we have not proposed a recommendation, however we would still like to seek views on them in the second stage of the Community Governance Review.

A parish for Oxenholme

We are not proposing a recommendation to create a new civil parish of Oxenholme. From the submissions received in Stage 1 we did not feel we had enough evidence to make this recommendation. The creation of a new parish on boundaries recently reviewed and altered by the LGBCE would create a greater degree of complexity having, as it would, a significant impact on electoral equality within the wards of Kendal Town Council. However, we would like to use the next consultation stage of the Community Governance Review to explore community governance in Oxenholme in terms of the identities and interests of communities and whether local government there is effective. Suggestions could include a new parish or a new pattern of warding in the current parish. We would welcome any views on this matter.

Some of the suggestions included in Kendal Town Council's submission have not been recommended, for the following reasons:

- The land north of Laurel Gardens is a small triangle of land which would have initially been used for access, there is currently no evidence any building will take place in this parcel of land, therefore we have decided not to make a recommendation to alter the boundary
- After investigating the anomaly on Gilthwaiteirigg Lane it was discovered that there are no residential properties, according to our records, on the other side of the boundary from their immediate neighbours in the parish of Kendal.
- Moving the boundary to follow the A591 near Brigsteer was not recommended as it would not affect any residential properties giving no benefit to community governance
- Land at Appleby Road and at Kendal Fell quarry was not considered as a recommendation as, at the time of writing, there is no indication that either of these sites will be brought forward for development in the near future.

Kentmere

Kirkby Ireleth: Middle Quarter	Parish Council (warded)	3	199	67	199	67	Broughton & Coniston

Comments

No comments received regarding this parish during stage one of the review.

Draft recommendations

We recommend a small change to the naming of the wards in Kirkby Ireleth Parish Council. As there are only three wards we are proposing to drop the “quarter” from those particular wards. We are proposing to name the wards as below:

- Kirkby Ireleth: Lower
- Kirkby Ireleth: Central
- Kirkby Ireleth: Heathlands

However, we are keen to hear suggestions for other, more appropriate, names that better reflect the identities and interests of the community in that area.

Kirkby Lonsdale

Lower Allithwaite: Upper Holker	Parish Council (warded)	2	129	65	136	68	Cartmel

Comments

No comments received regarding this parish during stage one of the review.

Draft recommendations

There are two recommendations we are seeking views on for Lower Allithwaite Parish Council.

A) We would like to seek views on reducing the number of councillors on Lower Allithwaite Parish Council to TEN. The split of councillors we are proposing is outlined below:

- Allithwaite ward SIX councillors
- Cartmel ward THREE councillors
- Upper Holker ward ONE councillor

Lower Allithwaite Parish Council currently has 15 councillors. It has, in recent years, carried many vacancies. The forecasted electorate is 1,569. In the terms of reference for this Community Governance Review we say we will have regard to government research which shows that a parish council of this size should have between six and twelve parish councillors. We have recommended the number of TEN to ensure a greater electoral equality between each ward and to provide effective and convenient local governance.

B) We would like to seek views on altering the election cycle of Lower Allithwaite Parish Council to ensure that the elections are held on the same cycle as the South Lakeland district election cycles for the wards of Grange and Cartmel. We propose Lower Allithwaite Parish Council holds elections in 2020 to begin the new cycle of elections, with subsequent elections held every four years.

As a result of the further electoral review carried out by the LGBCE, Allithwaite Parish Council is part of both Grange and Cartmel district wards. Cartmel is a two-member ward with a fallow year in 2019 (and every four years subsequent to this). Lower Allithwaite Parish Council has its scheduled elections in 2019 and, in the two wards belonging to the Cartmel district ward, is not able to combine these elections and get the cost benefits that combined elections bring.

The recommendation means there will be elections in 2019 and 2020, though it also ensures that the benefits afforded by the first recommendation, to reduce councillor numbers, can be realised quickly.

This recommendation is made to provide effective and convenient local governance.

Unwarded	Parish Council	7	804	115	966	138	Kendal South & natland

Comments

Submission received from Natland Parish Council.

Natland Parish Council submitted a comprehensive list of comments which can be read on request – see Appendix 2 (E) and 2 (G).

In summary, and following the draft recommendations below, there comments were:

- A) This should remain part of Natland Parish Council due to the separation of the new properties from the current Kendal boundary by a number of older properties with links to the Natland community. Natland Parish Council's view was that they can provide effective local governance to these electors.
- B) and C) The comments made suggested the idea of moving the boundary to exclude new development land at Rochester Gardens and Burton Road (A65) from Natland Parish Council had some merit, with some specific concerns around some existing housing. The comments went on to support the potential creation of a new parish council at Oxenholme, and that these areas of development land may be better served in a newly created parish council, rather than in the Oxenholme ward of Kendal Town Council.

Draft recommendations

We are seeking views on a number of boundary changes to the parish of Natland. These recommendations are made to ensure community governance is reflective of the identities and interests of the community in that area.

We acknowledge the comments made by Natland Parish Council and feel that making these recommendations allows for a fuller consultation in phase two of the Community Governance Review, giving us a better basis on which to make final recommendations.

A) Land adjoining Stonecross, Heron Hill and Oxenholme wards

We are proposing altering the parish boundary of Natland Parish Council so it excludes properties on Natland Mill Beck Lane and The Beeches and small area of land near Watercrock. This would form part of the Stonecross ward of the parish of Kendal. The attached map shows the proposed new boundary between Kendal Town Council and Natland Parish Council.

B) Land at Rochester Gardens adjoining Oxenholme ward

We are proposing altering the parish boundary of Natland Parish Council to exclude the properties on Rochester Gardens that are currently in Natland Parish. All properties on Rochester Gardens would form part of the Oxenholme ward of the Parish of Kendal. The attached map shows the proposed new boundary between Kendal Town Council and Natland Parish Council.

C) Land adjoining Oxenholme ward

We are proposing altering the parish boundary of Natland Parish Council to exclude properties on an area of land south of Oxenholme off Burton Road (A65). This would form part of the Oxenholme ward of the parish of Kendal. It will also affect one property, Overdale, which will move from Natland Parish Council into the Oxenholme ward of Kendal Town Council. The attached map shows the proposed new boundary between Kendal Town Council and Natland Parish Council.

New Hutton

Unwarded	Parish Council	5	111	23	124	25	Ambleside & Grasmere

Comments

No comments received regarding this parish during stage one of the review.

Draft recommendations

We are seeking views on altering the election cycle of Skelwith Parish Council to ensure that the elections are held on the same day as South Lakeland district elections for the ward of Ambleside & Grasmere. We propose Skelwith Parish Council holds elections in 2023 to begin the new cycle of elections, with subsequent elections held every four years.

As a result of the further electoral review carried out by the LGBCE, Skelwith Parish Council sat within the ward of Ambleside & Grasmere. Ambleside & Grasmere is a two-member ward with a fallow year in 2020 (and every four years after this). Skelwith Parish Council has its scheduled elections in 2020 and is therefore not able to realise the cost benefits that combining parish and district elections bring.

The recommendation means there will be elections for Skelwith Parish Council in 2020, though the councillors will serve a shortened term of three years, with new elections in 2023. These elections will align Skelwith Parish Council elections with Ambleside & Grasmere district ward elections from then on.

Stainton

No comments received regarding this parish during stage one of the review.

Draft recommendations

We are seeking views on a recommendation to amalgamate Whitwell and Selside Parish with Fawcett Forest Parish – see Appendix 2 (B).

Fawcett Forest parish has a very small electorate and has a recent history of not meeting, leading to the Monitoring Officer at South Lakeland District Council being appointed by auditors to sign off its accounts.

Given this, we are proposing to create a new Parish which amalgamates the parish of Fawcett Forest with the parish of Whitwell and Selside. The new parish would have a predicted electorate of 183.

We recommend that the new parish is named Selside Parish, and that the parish shall not have a parish council, but a parish meeting.

Windermere

Ward name (if applicable)	Type of parish council or meeting	Number of councillors	Electorate at 3 September 2018	Electors per councillor at 3 September 2018	Predicted electorate 2023	Predicted number of electors per councillor 2023	District ward

Comments

No comments received regarding this parish during stage one of the review.

Draft recommendations

We would like to seek views on reducing the number of councillors on Windermere Town Council to THIRTEEN. The split of councillors we are proposing is outlined below:

- Applethwaite ward THREE councillors
- Bowness North ward FOUR councillors
- Bowness South ward THREE councillors
- Windermere Town ward THREE councillors

Windermere Town Council currently has 20 councillors. It has, in recent years, carried many vacancies and has a history of uncontested elections. The forecasted electorate is 6,346. As per the terms of reference for this Community Governance Review we will have regard to government research which shows that a parish council of this size should have between nine and sixteen parish councillors. We have recommended the number of THIRTEEN to ensure a greater electoral equality between each ward.

For this recommendation to take effect we would have to apply to the Local Government Boundary Commission for England (LGBCE) to make a consequential change. There are no proposals to alter any boundaries, however the electoral arrangements for Windermere Town Council were considered as part of the further electoral review and as such are protected under law from five years after this review. It will be for the LGBCE to decide, following receipt of the proposals, if a reduction in councillor numbers should be made and when it should be implemented.
