<b>4 NNDR Levy and Pool</b>						
	Comprehensive Income and Expenditure Statement: Taxation and Non-Specific Grant Income: Non-domestic rates levy	2020/21	1,742	1,000	742	Accounting for business rates requires billing authorities to calculate the income due compared to their business rate baseline and to pay a levy of 50% of any surplus to the Government unless part of a business rate pool where the levy is paid to the pool and then shared between members of the pool. The baseline for 2019/20 (£2,213,086) was used for the estimate of the 2020/21 pool contributions instead of the baseline for 2020/21 (£2,249,145), which has resulted in recognising too much income from the pool. This has now been reconciled with figures from the NNDR pool accounts, which were not available in June 2021 when this Council's accounts were prepared.
